

Outputs:

Q6: Taylor Series Method

```
C:\sauravnumericalmethods\t x + - □ x
Enter x0 and y0 value
0 0
Enter step-size
0.2
Enter the value you want to find
0.4
The result is:0.021346
-----
Process exited after 137 seconds with return value 2
2
Press any key to continue . . .
```

Q7: Heun's Method

```
C:\sauravnumericalmethods\t x + - □ x
Enter x0 and y0 value
1 2
enter step size
0.5
enter the values you want to find
2
the solution is 15.166668
-----
Process exited after 59.82 seconds with return value 2
5
Press any key to continue . . . |
```

Q8: Euler's Method

```
C:\sauravnumericalmethods\t x + - □ x
Enter x0 and y0 value
1 2
enter step size
0.5
enter the values you want to find
2
the solution is 4.875000
-----
Process exited after 64.21 seconds with return value 24
Press any key to continue . . .
```

Q9: 4th Order RK Method

```
C:\sauravnumericalmethods\t x + - □ x
Enter x0 and y0 value
0 0
Enter step-size
0.2
Enter the value you want to find
0.4
The result is:0.021360
-----
Process exited after 13.42 seconds with return value 22
Press any key to continue . . . |
```
